

St. Patrick's Day Path Game

www.prekinders.com

To Play:

Place the file folder game board open, and place the shamrock cards in a stack (or in a container) by the board.

Players may place their game pieces at any point on the board to start. Players take turns rolling the dice and moving the correct amount of spaces. When a player lands on a shamrock, they collect a shamrock card from the stack. Play continues until all of the shamrock cards are taken. At the end of the game, players may count how many shamrock cards they earned. This does not have to be a win/lose game. You can use 1 or 2 dice, and any amount of shamrock cards you wish. To make the game shorter, use less cards.

Players: 1-4

Ages: Preschool-Kindergarten
